Flitwick Moor	SSSI	Flitwick Moor is the largest semi-natural wetland in Bedfordshire with a range of swamp, mire with acid springs, fen and mesotrophic grassland communities with carr woodland and some drier wood. The site contains a rich assemblage of notable vascular and lower plants and fungi and is renowned for its
		invertebrate interest.
Fancott Woods and Meadows	SSSI	Fancott Meadows are mainly ancient ridge and furrow. The meadows exhibit a variety of vegetation types chiefly dependent on the drainage conditions.
